DECLARATION

I, Nathalie Miglioretto, assistant in the Intellectual Property Department of the Air Liquide group in Paris, hereby declare:

That I have been in charge of the preparation and of the sending of all the documents related to the Entry into the National phase before the United States Patent and Trademark Office, of International Application PCT/FR2004/050348, filed on July 21, 2004, now U. S. patent application 10/565,712, which are required by said Authority;

That on February 23, 2006, I sent to Mr. DEHAYES, one of the inventors of the subject matter of said Patent Application, at his last known address of Residence Belledonne 38660 LUMBIN, France, a letter accompanying the Declaration and Power of Attorney Form For Patent Application and the Assignment of Invention Form, in order to be signed by him;

That having received no answer to said letter, I decided to call up Mr. DEHAYES on March 9, 2006;

That during this telephone interview, Mr. DEHAYES told me that he will not sign the documents, because he was disagreeing with their contents;

That I thus informed Philippe CONAN, who is the Paris Patents Group Manager of the department; who also failed to convince Mr. DEHAYES to sign the said documents, and who asks then to inform my US colleagues of the matter, that I did on April 7, 2006.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Date: January 15, 2007
